Community Education | A Virtual Presentation

Supporting Veterans During Life-Changing Conditions

As the population of Central Oregon grows, so does the population of veterans in our community. Did you know that there are over 700 World War II, 1,200 Korean War, and 7,000 Vietnam War veterans living across the tri-counties with even more veterans from younger generations moving here? Join us for a discussion with two veterans from our community who will share how:

- Veterans' organizations in Central Oregon work together to provide support throughout our community
- These different groups meet veterans at various stages of their life, especially as conditions change
- Partners In Care works collaboratively with the community to honor veterans at end of life
